Table 1 Effect of filters when applied independently.

Initial maps	Initial folds	filter	Remaining maps (%)	Remaining folds (%)
204783	212	R_{gc}	182696 (89.2)	210 (99.1)
		Loop	163836 (80.0)	211 (99.5)
		Adj	161470 (78.8)	212 (100)
		R_{gf}	156192 (76.3)	209 (98.5)
		Sheet	14057 (7.0)	199 (93.9)
		Strand	13336 (6.5)	192 (90.6)

R_{gc} = coarse R_g; Loop = loop lengths; Adj = adjacent parallel; R_{gf} = fine R_g; Sheet = poor β sheets; Strand = β strand with too few contacts.
