Sequence logo showing the conservation of amino acids at each position of UniRef90_07K3Y9 across various proteins. The x-axis represents positions 1 to 40, and the y-axis lists UniProt IDs. Positions 1-10 are shown in blue, 11-20 in red, 21-30 in green, and 31-40 in yellow. Conserved amino acids are highlighted in black, while variable ones are in white.
