

Table with 40 columns (numbered 1, 10, 20, 30, 40) and rows of protein sequences. Each row starts with a label (e.g., UniRef90_UPI0003BBC4E6) and a sequence of amino acids. Some amino acids are highlighted in yellow or red boxes, indicating specific substitutions or features. The sequences are aligned across the columns, showing conserved regions and variations.
