

The sequence logo displays the probability of each amino acid (A, C, D, E, F, G, H, I, K, L, M, N, P, Q, R, S, T, V, W, Y) at each position of the UniRef90_4RNFU3 protein sequence. The x-axis represents the position from 1 to 40. The y-axis represents the amino acids. The height of each bar indicates the probability of that amino acid at that position.
