

**Cec.cL2449**

Secondary structure diagram of the Cec.cL2449 RNA sequence. The diagram shows various stem-loops and bulges. Key regions are labeled: P5a, P5, P4, P6, P2, P10, P1, P9, P9.1, P9.0, P7, P3, P8, P7.1. A blue circle highlights a specific region in the P1/P10 area. The sequence is 96 nucleotides long, with the last few bases (96-99) shown in parentheses.
