

Secondary structure diagram of the r.cL2449 RNA sequence. The diagram illustrates various stem-loops and bulges, with regions labeled P1 through P10, P10.1, P9.0, P9.1, P7, P7.1, P8, P6, P5, P5a, P4, and P3. The sequence is 1067 nucleotides long, with the last few nucleotides (UUA) shown in a separate box at the bottom right.
